

EXECUTIVE SUMMARY

A passionate and results-driven software developer with a deep enthusiasm for building robust, scalable, and intuitive web applications. I possess a strong command of the full-stack, from architecting efficient backends with Python and Django to crafting dynamic frontends with React and RESTful APIs. My strong problem-solving skills and adaptability make me an excellent fit for a software engineering role, where I am eager to apply my abilities to contribute valuable solutions from day one.

EDUCATION

| | | | |
|---------------------------------|---|-------------------------------------|--------------|
| State Board of Secondary School | - | Anant Bhalerao Vidya Mandir | 2020/05 |
| Higher Secondary School | - | Sarasvati Bhuvan College of Science | 2022/04 |
